**1. NATURE AND CONTINUANCE OF OPERATIONS**

Black Dragon Gold Corp. (formerly Astur Gold Corp.) (the “Company”) was incorporated under the laws of the Province of British Columbia on August 20, 2007, and is classified as a junior mining issuer with the TSX Venture Exchange (“TSX-V”). The Company’s head office address is Suite 545 – 999 Canada Place, Vancouver, British Columbia, V6C 3E1. The registered and records office address is 2080 – 777 Hornby Street, Vancouver, British Columbia, V6Z 1S4.

These unaudited condensed consolidated interim financial statements have been prepared assuming the Company will continue on a going-concern basis. The Company has incurred losses since inception and the ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate financing. Management is actively targeting sources of additional financing through alliances with financial, exploration and mining entities, or other business and financial transactions which would assure continuation of the Company’s operations and exploration programs. In order for the Company to meet its liabilities as they come due and to continue its operations, the Company is solely dependent upon its ability to generate such financing. These material uncertainties may cast significant doubt upon the Company’s ability to continue as a going concern.

There can be no assurance that the Company will be able to continue to raise funds, in which case the Company may be unable to meet its obligations. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded in these financial statements.

The unaudited condensed consolidated interim financial statements for the three months ended March 31, 2017 do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence.

**2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION**

These unaudited condensed consolidated interim financial statements were authorized for issue on May 30, 2017 by the directors of the Company.

***Principles of consolidation***

These unaudited condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiaries, including Exploraciones Mineras del Cantabrico S.L. (“EMC”). EMC is a mining company in Asturias, Spain. All inter-company transactions and accounts have been eliminated upon consolidation.

***Basis of preparation***

These unaudited condensed consolidated interim financial statements for the three months ended March 31, 2017 are prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”), *Interim Financial Reporting* (“IAS 34”). These unaudited condensed consolidated interim financial statements have been prepared using the same accounting policies and methods of application as the Company’s most recent annual audited consolidated financial statements. These unaudited condensed consolidated interim financial statements do not include all information and disclosures required in audited consolidated financial statements and should be read in conjunction with the Company’s December 31, 2015 audited consolidated financial statements.

(formerly Astur Gold Corp.)

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

(Expressed in Canadian dollars)

(Unaudited)

THREE MONTHS ENDED MARCH 31, 2017

**2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd...)****Accounting standards and interpretations issued but not yet applied**

As at the date of these financial statements, the following standards have not been applied in these financial statements:

- (i) IFRS 9 – New standard that replaced IAS 39 for classification and measurement, effective for annual periods beginning on or after January 1, 2018.
- (ii) IFRS 15 - New standard to establish principles for reporting the nature, amount, timing, and uncertainty of revenue and cash flows arising from an entity's contracts with customers, effective for annual periods beginning on or after January 1, 2018.
- (iii) IFRS 16 – Leases: New standard to establish principles for recognition, measurement, presentation and disclosure of leases with an impact on lessee accounting, effective for annual periods beginning on or after January 1, 2019.

Management is currently assessing the impact of these new standards on the Company's accounting policies and financial statement presentation.

---

**4. EXPLORATION AND EVALUATION ASSETS (cont'd...)**

**Salave Gold Property**

In April 2010, the Company completed the acquisition of a 100% interest in the Salave property located in the province of Asturias, Spain. The Salave property is comprised of several mineral concessions and an investigation permit. There is contingent consideration of €20,000,000 due to the vendor for the acquisition of the Salave property if certain permits are received to operate an open pit mine.

The Salave property is also subject to a pre-existing lease termination agreement which calls for five cash payments of US\$5,000,000 each with the first payment due when certain permits to construct and operate an open pit mine are received, the second on commencement of commercial production and the remaining three payments based on certain production levels with the final payment due after 800,000 ounces have been produced. Pursuant to the lease termination amending agreement, at the option of the Company and subject to regulatory approval, any of these payments can be satisfied in whole by the issuance of common shares of the Company.

After 800,000 ounces of gold have been produced, the Salave property is also subject to a 5% net smelter return royalty ("NSR"), half of which can be purchased by the Company for a cash payment of US \$5,000,000.

During 2005, the regional government of Asturias, Spain halted open-pit project development of the Salave property due to the introduction of certain zoning legislation and the rejection of a specific authorization for mining of the property. Immediately thereafter, a legal proceeding was commenced by EMC and the former owners of EMC against the government seeking the reversal of the decision to halt open-pit project development. This legal proceeding was not successful and, accordingly, the Company's development plans for the Salave property changed from an open pit to an underground operation. The consequence of this development plan is that the contingent consideration will not be payable.

During the fourth quarter of fiscal 2014, the Company received a negative decision on the Amended Environmental Impact Assessment from the Commission for Environmental Affairs of the Principality of Asturias for the Company's current development proposal of the Salave property. As a result of this decision, the Company impaired all of its acquisition costs and exploration and evaluation costs for the year ended December 31, 2014.

During April 2015, the Company filed a lawsuit before the Asturias Court of Justice challenging the decision to reject approval of a proposed underground mine operation for the Salave project. The initial legal action sought to challenge this ruling. In conjunction with this legal action, the Company filed a statement of claim (the "Claim") against the Ministry of Economy and Employment of the Principality of Asturias (the "Ministry") in November 2015. The Claim sought to recover Euro 8.59 million of expenditures incurred on the Salave property since 2010 when the Company acquired the property.

During fiscal 2016, the Company's claim was rejected by the Asturias Court of Justice. While the Company initially filed an appeal, current management rescinded this appeal and intends to work closely with the Spanish government to develop a feasibility study that meets the requirements of the Spanish government.

In June 2013, the Company closed an agreement for a \$10,000,000 loan facility (“Facility”) to be provided by RMB Australia Holdings Limited (“RMB”), the lender. On August 8, 2013, the Facility was amended to convert all amounts owing and future borrowings from Canadian dollars to US dollars. Previously drawn Canadian dollar amounts were converted to their US dollar equivalents. The total value of the loan facility available to the Company was converted to US\$10,000,000. As of December 31, 2016, US\$7,796,816 (2015 - US\$7,566,682) had been drawn.

The Facility is for a maximum three-year term at LIBOR plus 6% per annum. The Facility is subject to an arrangement fee of 4.5% of the Facility amount, less any work fees paid to the arranger in cash, payable upon execution of the Facility. Both were paid during the year ended December 31, 2013. The repayment of principal, originally due June 2016, has been extended to May 28, 2017. The Company has the right to prepay the Facility at any time, subject to certain break fees to compensate for lost interest to RMB. RMB also has the ability to cancel any undrawn amounts at any time with 10 days’ notice. The Facility is secured by a general security agreement, a pledge over the shares of EMC, bank accounts, mining concession and investigation permit as well as a guarantee provided by the Company.

Under the terms of the Facility, on June 5, 2013, the Company issued 5,000,000 warrants entitling RMB to purchase 5,000,000 common shares of the Company for 36 months at an exercise price of \$0.62 until June 5, 2016. RMB also has the right, upon choosing to exercise its warrants, to have the Company apply the warrant proceeds as a prepayment of the Facility and subject to related prepayment terms. The warrants were given a value of \$1,017,659 using the Black-Scholes pricing model and applying the following assumptions:

**BLACK DRAGON GOLD CORP.**

(formerly Astur Gold Corp.)

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

(Expressed in Canadian dollars)

(Unaudited)

THREE MONTHS ENDED MARCH 31, 2017

**6. LOAN FACILITY (cont'd...)**

Risk-free interest rate	1.15%
Expected life of warrants	3 years
Expected annualized volatility	95.76%
Expected dividend rate	Nil

For the year ended December 31, 2016, the Company recorded \$740,686 (2015 - \$643,770) in interest expense from Facility borrowings.

For the three months ended March 31, 2017, the Company recorded \$186,157 (2016 - \$380,375) in interest expense from Facility borrowings.

The Facility also charges a 1.5% commitment fee on the undrawn balance of the loan. As of March 31, 2017, the Company has paid or accrued \$12,284 (December 31, 2016 - \$12,284) in interest expense from the commitment fee. The Company was not charged a commitment fee from March 31, 2015 to December 31, 2015 or for the year ended December 31, 2016 or for the three months ended March 31, 2017.

Interest, including the commitment fee, is payable quarterly. The Company has not made any payments since June 2015 and has accrued these amounts as owing. Total interest payable as at March 31, 2017 is \$1,967,000 (December 31, 2016 - \$1,794,016).

The negative decision of the Amended Environmental Impact Assessment (Note 4) is a review event whereby RMB can discontinue the Facility and demand repayment. In March 2015, RMB agreed to extend the review event period and provide funding for certain approved activities. Due to the uncertainty involving the extension, the Company has decided to treat the Facility as a current item.

During the year ended December 31, 2016, Lionsbridge, RMB and the Company entered into an option agreement, under which RMB has granted the Company the option (the "Option") to repay the secured debt facility owed by the Company to RMB in consideration for: (1) a cash payment of US\$3,050,000; (2) a 2% net smelter returns royalty on the first 800,000 ounces of gold produced from the Company's Salave Project (the "NSR") and; (3) U.S \$6,000,000 if, over a three year period, the Company enters into any sale, merger or joint venture involving the Salave Project where the Salave Project is valued in excess of US\$10,000,000. The NSR may be repurchased by the Company at any time until the earlier of (a) receipt of primary environmental approvals for the Salave Project or (b) December 31, 2017 for a cash payment of US\$3.0 million. Under the Option Agreement, RMB granted Lionsbridge the exclusive right until September 6, 2016 (the "Exclusivity Period"), as extended to May 28, 2017, to arrange the necessary financing to exercise the Option.

	Three Months ended March 31, 2017	Three months ended March 31, 2016

**7. SHAREHOLDERS' EQUITY**

*Authorized:*

Unlimited number of common shares without par value.

**Issued**

During the three months ended March 31, 2017, the Company issued 765,000 units for gross proceeds of \$42,075 in conjunction with the closing of a tranche of a non-brokered private placement. Each unit is comprised of one common share and one share purchase warrant. Each warrant enables the holder to acquire one common share with an exercise price of \$0.11 per share, expiring between March 27 and March 28, 2019. If, during the warrant term, the closing price of the Company's common shares is at least \$0.22 for a period of twenty consecutive trading days, the Company may, at its option, accelerate the expiry date of the warrants by issuing a news release or giving written notice thereof all holders of warrants, and in such case, the warrants will expire on the earlier of the 30th day after the date on which the news release or written notice is disseminated by the Company, and the original expiry date. The Company paid a finder's fee of \$1,326.

During August 2016, the Company issued 10,282,592 units for gross proceeds of \$514,130 in conjunction with a non-brokered private placement. Each unit is comprised of one common share and one share purchase warrant. Each warrant enables the holder to acquire one common share with an exercise price of \$0.07 per share, expiring August 12, 2018. If, during the warrant term, the closing price of the Company's common shares is at least \$0.20 for a period of twenty consecutive trading days, the Company may, at its option, accelerate the expiry date of the warrants by issuing a news release or giving written notice thereof all holders of warrants, and in such case, the warrants will expire on the earlier of the 30th day after the date on which the news release or written notice is disseminated by the Company, and the original expiry date. A cash finder's fee of \$37,500 was paid to Lionsbridge Pty Ltd., a company controlled by the Company's CEO. In addition, the Company paid cash issuance costs of \$21,608.

During December 2016, the Company issued 3,940,000 units for gross proceeds of \$216,700 in conjunction with the closing of two tranches of a non-brokered private placement. Each unit is comprised of one common share and one share purchase warrant. Each warrant enables the holder to acquire one common share with an exercise price of \$0.11 per share, expiring between December 6 and December 22, 2018. If, during the warrant term, the closing price of the Company's common shares is at least \$0.22 for a period of twenty consecutive trading days, the Company may, at its option, accelerate the expiry date of the warrants by issuing a news release or giving written notice thereof all holders of warrants, and in such case, the warrants will expire on the earlier of the 30th day after the date on which the news release or written notice is disseminated by the Company, and the original expiry date. The Company paid a finder's fee of \$660.

**9. RELATED PARTY TRANSACTIONS (cont'd)***b) Transactions with other related parties*

The following amounts were incurred with respect to other former directors and a spouse of the former President and Chief Executive Officer of the Company:

	Three Months ended March 31, 2017	Three Months ended March 31, 2016
Share-based compensation	\$ 82,893	\$ -

There is \$1,079,577 (December 31, 2016 - \$970,089) in accounts payable and accrued liabilities at March 31, 2017 that is due to directors, a former director, officers and companies controlled by directors or officers or a former director or officer of the Company.

**10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT***Fair value*

The inputs used in making fair value measurements are classified within a hierarchy that prioritizes their significance. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The carrying value of receivables and accounts payable and accrued liabilities and loan facility approximated their fair value because of the short-term nature of these instruments. Cash is measured at fair value using Level 1 inputs. The carrying value of deposits also approximates its fair value.

Financial instruments measured at fair value on the consolidated statements of financial position are summarized in levels of fair value hierarchy as follows:

Assets	Level 1	Level 2	Level 3	Total
Cash and equivalents	\$ 31,927	\$ -	\$ -	\$ 31,927

The Company has exposure to the following risks from its use of financial instruments:

*Credit risk*

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's cash is held at large financial institutions and it believes it has no significant credit risk.

---

**10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd...)**

*Liquidity risk*

Liquidity risk is the risk that the Company will not meet its financial obligations as they fall due. The Company manages its liquidity risk by forecasting cash flows from operations, and anticipating investing and financing activities. As at March 31, 2017, the Company had current assets of \$52,464 to settle current liabilities of \$14,653,390 which either have contractual maturities of less than 30 days and are subject to normal trade terms or are due on demand.

*Market risk*

Market risk is the risk of loss that may arise from changes in market factors, such as interest rates and foreign exchange rates.

*a) Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

In June 2013, the Company closed a loan facility agreement with RMB Australia Holdings Ltd. (see Note 7). Borrowings made against this loan facility agreement are subject to interest at LIBOR plus 6% per annum. The LIBOR is derived from a filtered average of several world banks' interbank deposit rates for larger loans with maturities between overnight and one full year and is subject to change and therefore subject to interest rate risk. Based on the Company's loan facility balance at March 31, 2017, a 1% change in LIBOR would result in an \$104,000 change in annual interest expense.

*b) Foreign currency risk*

The Company's functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars. The Company funds certain operations, exploration and administrative expenses in Spain by using Euros converted from its Canadian bank accounts. Management believes the foreign exchange risk derived from currency conversions is negligible and therefore does not hedge its foreign exchange risk. Based on the Company's Euro denominated financial instruments at March 31, 2017, a 10% change in exchange rates between the Canadian dollar and the Euro would result in a \$34,102 change in foreign exchange gain or loss.

In August 2013, the Company's loan facility agreement with RMB Australia Holdings Ltd. was amended so that all borrowings and repayments will be made in US dollars (see Note 7). Based on the Company's US dollar loan facility balance at March 31, 2017, a 10% change in exchange rates between the Canadian dollar and the US dollar would result in a \$928,000 change in foreign exchange gain or loss.

**11. CAPITAL MANAGEMENT**

The Company's capital structure consists of shareholders' equity and a loan facility agreement (see Note 7). The Company's objective when managing capital is to maintain adequate levels of funding to support the development of its business and maintain the necessary corporate and administrative functions to facilitate these activities. This is done primarily through equity financing, selling assets, and incurring debt. Future financings are dependent on market conditions and there can be no assurance the Company will be able to raise funds in the future. The Company invests all capital that is surplus to its immediate operational needs in short-term, high liquid, high-grade financial instruments. There were no changes to the Company's approach to capital management during the year. The Company will need to raise additional capital by obtaining equity financing, selling assets and incurring debt to develop its business.

<b>December 31, 2016</b>				
Canada	\$ 1,240	\$ 981	\$ -	\$ 2,221
Spain	-	-	-	-
	<u>\$ 1,240</u>	<u>\$ 981</u>	<u>\$ -</u>	<u>\$ 2,221</u>

**14. SUBSEQUENT EVENTS**

- a) During April 2017, the Company issued convertible debentures totaling \$251,000. The debentures bear interest at a rate of 15% per annum, payable at maturity. The debentures will mature and be repayable on or before April 18, 2019. The debentures are convertible into common shares in the Company at a conversion price of \$0.055 per common share until April 18, 2018, and \$0.10 per common share thereafter until April 18, 2019. Each \$1,000 in principal amount of debentures also includes 18,181 common share purchase warrants. Each warrant entitles the holder to acquire one additional common share of the company at a price of \$0.11 per common share for a period of 24 months. If, during this 24-month period, the volume-weighted average price of the Company's common shares is at least \$0.22 for a period of seven consecutive trading days, the Company may, at its option, accelerate the expiry date of the warrants by issuing a news release or giving written notice thereof to all holders of the warrants, and, in such case, the warrants will expire on the earlier of: (i) the 30th day after the date on which the news release or written notice is provided by the Company; and (ii) the original expiry date. In connection with the issuance of the debentures, the holder thereof will be granted a right to nominate a member for election to the Company's board of directors at any meeting of shareholders where directors are to be elected, provided such nominee is acceptable to regulatory authorities, for so long as the debentures are outstanding.

Pursuant to a service agreement dated July 11, 2016, and previously approved by the TSX Venture Exchange, Lionsbridge Capital Pty. Ltd., a company owned and controlled by Brian S. Wesson, chief executive officer, B. Clyde Wesson, chief operating officer, and Amelia Wesson, vice-president, will be receiving a finder's fee of 570,454 shares in connection with the closing of the debentures.

- b) During May 2017, the Company issued 570,000 units for gross proceeds of \$31,350 in conjunction with the closing of a tranche of a non-brokered private placement. Each unit is comprised of one common share and one share purchase warrant. Each warrant enables the holder to acquire one common share with an exercise price of \$0.11 per share, expiring between March 27 and March 28, 2019. If, during the warrant term, the closing price of the Company's common shares is at least \$0.22 for a period of twenty consecutive trading days, the Company may, at its option, accelerate the expiry date of the warrants by issuing a news release or giving written notice thereof all holders of warrants, and in such case, the warrants will expire on the earlier of the 30th day after the date on which the news release or written notice is disseminated by the Company, and the original expiry date.
